

Memorandum

To: DISTRICT LANDSCAPE ARCHITECTS

Date : April 2, 1998

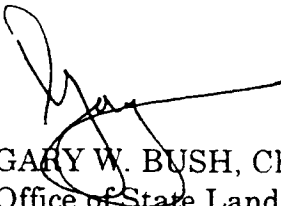

File No. : 425

From: DEPARTMENT OF TRANSPORTATION
DESIGN AND LOCAL PROGRAMS
OFFICE OF STATE LANDSCAPE ARCHITECTURE
MAIL STATION 28

Subject: Electrical Plans

Caltrans requires electrical plans to be prepared and signed by a Registered Electrical or Civil Engineer for highway planting projects. This includes projects with existing irrigation controllers that are being replaced with new irrigation controllers.

Headquarters Office of Office Engineer is receiving some projects with electrical sheets signed by Landscape Architects for this type of work. If this situation occurs, Office Engineer will require the district to submit a new sheet with the proper stamp and signature for the required electrical sheet.

Memorandum

To: DISTRICT LANDSCAPE ARCHITECTS

Date : April 27, 1998

File No. : 425

From: DEPARTMENT OF TRANSPORTATION
DESIGN AND LOCAL PROGRAMS
OFFICE OF STATE LANDSCAPE ARCHITECTURE
MAIL STATION 28

Subject: Clarification of Electrical Plan requirement

This is to clarify the memorandum titled Electrical Plans, dated April 2, 1998. Caltrans requires electrical plans to be prepared and signed by a Registered Electrical or Civil Engineer for highway planting projects. This includes projects with a new Irrigation Controller Enclosure Cabinet being installed to replace an existing Irrigation Controller Enclosure Cabinet. If an irrigation controller is being replaced in an existing Irrigation Controller Enclosure Cabinet, no electrical plan or signature is required.
